

VIVISCAL[®]

Clinically Proven Unisex
Hair Loss Remedy Solution

Available from  Zoemed Healthcare

When do most users see results?

Generally, after 4-6 months of use. This is because hair is a slow reactor. This is common with people who have had anesthesia or suffered a major trauma.

The Viviscal nutrients accumulate slowly, in your system. After a certain amount of time, depending on the speed of your metabolism, it reaches a threshold point, and the change is dramatic.

How does Viviscal work?

Viviscal works at the same speed as your hair reacts. For most people, that's about four to six months. It is designed to avoid one of the most critical problems in the field: trouble accessing the follicle which is surrounded by tissues which can block some of the nutrient passage.

Viviscal just doesn't just provide more nourishment, it allows subsistent vitamins and proteins to pass through far more easily without disrupting body systems. This powerful, carefully tested combination is the source of Viviscal's effectiveness and safety.

Viviscal History...

Viviscal was originally researched by Dr Allan Lassus and was launched in Finland in October 1992. Within 3 months Viviscal topped the leading 25 natural health products list and still continues to lead as a best seller in its field.

What is Viviscal?

Viviscal provides nourishment for your hair and contains a unique combination of Vitamin C, silica compounds and highly concentrated marine protein. What makes Viviscal truly unique is the fact that it provides far more than just nutrition.

It actually helps to remove internal barriers that block the flow of nutrients to the scalp. It hydrates and rejuvenates the scalp in a way that simple vitamins and ordinary proteins cannot.

No other hair supplement can offer Viviscal's unparalleled, long-term benefits.

What can Viviscal do?

- Decrease hair loss whilst regenerating new hair growth by activating resting hair follicles of the skin.
- Proven to be extremely effective in treating the milder form of baldness and alopecia areata.
- Improves the quality of the skin.

'The Miracle Mane Pill...'

Cosmopolitan Magazine

'Rich in marine protein, Vitamin C & other nutrients that aid in the hair's rejuvenation, Viviscal can help if you're suffering from hair-loss breakage or dryness.'

Wedding Magazine

Beautiful hair in just 3 easy steps...

1. Viviscal tablets

Viviscal tablets are key to the Viviscal process providing nourishment for your hair and contain a unique combination of Vitamin C, silica compounds and highly concentrated marine protein. What makes Viviscal truly unique is the fact that it provides far more than just nutrition.

It actually helps to remove internal barriers that block the flow of nutrients to the scalp. The recommended dosage is 2 tablets per day for a period of 4-6 months dependant upon results.

The Viviscal product range consists of tablets, scalp lotion and shampoo & conditioner.

2. Viviscal scalp lotion

Contains natural ingredients which help to nourish the hair follicle when massaged directly into the scalp. It provides a holistic approach to the Viviscal program.

3. Viviscal shampoo & conditioner

Contains the exclusive formulation for complete follicle saturation. The shampoo is specifically formulated with the correct PH5.5 whilst Viviscal's unique nutrients have been added so the shampoo and conditioner cleanse the hair completely, whilst soothing the scalp.

These products cannot provide the hair with enough nutrient supplements on their own but add the additional element that enhances the quality of the hair.

*NOTE: We do not recommend that people allergic to fish, seafood or acerola nor pregnant women take the product without consulting their doctor. It should also be noted that patients with a condition of greasy seborrheic dermatitis should refrain from taking Viviscal until the dermatitis is cured.

Viviscal Quotes

"What I like best about Viviscal is that it's fast and easy to use, and it really works. After using Viviscal, my hair condition is a lot healthier, but, best of all, it's been growing at a really fast rate, so I'm very satisfied with how fast it's growing."

Cassandra J., Decatur, GA

"I have received so many compliments from people who have seen my hair after I started taking the Viviscal, and I mean, it was like a miracle. The texture of my hair has changed, it's healthier, it's heavier, it's fuller."

Carla B., Southfield, MI
