

# VIVIDA®

For Beautiful Skin

'For the rejuvenation of your  
skin from within'

Available from  *Zoemed Healthcare*

## VIVIDA

The skin's need for supplementary nutrients increases with age because skin can be negatively affected by sun exposure, smoking, alcohol and strict dieting, which all contribute to the premature ageing of the skin.

When used in synergy the Vivida products help to reconstruct damaged or aged skin tissue, leaving the skin feeling supple and energised from within.

### The Active Ingredient...

Vivida's active ingredient is a unique natural nutrient derived from marine extracts, made up of a complex compound of proteins and polysaccharides which:

- Improve the structure, firmness and elasticity of the skin
- Smooth wrinkles
- Moisturise dry chapped skin
- Repairs sun damaged skin

## Stage 1 VIVIDA tablets

Vivida tablets help to restore damaged skin tissues by supplying them with additional nutrients which help to improve the skin's elasticity and create a smooth, flawless complexion.

Each Vivida tablet contains a combination of nutrients including acerola cherry extract which helps to improve absorption, and organic silica which is well renowned for its positive effects on the skin.

A suitable dosage for an adult of average weight is two Vivida tablets daily, one in the morning and one in the evening. For optimum results use Vivida body lotion and 24 hour cream.

\*Vivida tablets are lactose and gluten free and no side effects have been recorded, however they are NOT recommended for people allergic to fish, seafood or acerola.

## Stage 2 VIVIDA 24 hour cream

Vivida 24 hour cream is a rich intensive moisturising cream helping to revive the moisture, firmness and elasticity of the skin, thereby effectively combating the ageing process.

Active ingredients include marine protein complex, evening primrose oil and vitamins A and E which help to protect the skin against impurities.

This pleasantly textured cream is easily absorbed into the skin and can be used as both a day and night cream.

Vivida cream has instant results but when used with the tablets and body lotion the result is skin which is clear, smooth and healthy in the long term.

## Stage 3 VIVIDA Body Lotion

Smooth, soft and easy to apply.

Vivida body lotion contains the same moisturising and regenerating ingredients as Vivida 24-hour cream but in the right concentration to effectively nourish every area of the body.

## How does Vivida affect the skin?

Both external and internal stimulation are required to effectively smooth out and prevent wrinkles and lines, the active ingredient in the Vivida products strengthens the top layer of the skin and at the same time the skin is renewed from within.

The destruction of the skin from ageing is apparent in the upper part of the dermis and is called age band or black band, here the connective tissue has lost the structure that keeps the skin firm and elastic.

It is this tissue which Vivida affects and rejuvenates significantly regenerating the tissue within 3-4 months of using the product.

## Q&A

*Can people with Sensitive Skin use Vivida?*

Yes, the Vivida products have been subject to a 21 day irritation test.

*How long should Vivida be used?*

Depending on the skin, Vivida should be used for 3-4 months to obtain the best results.
